## What John Stands For:

- **Fiscal Responsibility**  
John strives to keep taxes low, routing out waste while supporting critical projects such as our sewer and stormwater infrastructure.
- **Pipeline Emergency Plans**  
John says we need to have plans in place for our first responders and residents in the event of a pipeline emergency.
- **Responsible Contractor**  
Since the Township must take the lowest bid on major projects, John believes that there should be minimum standards for all contractors.
- **Balanced Development/Affordable Housing**  
John is for balanced development that reflects the needs of the community and open space.
- **Police Department Engagement**  
John supports a Citizens Advisory Group to work directly with the police to address community concerns, including racial justice.
- **Switch to Renewable Energy and Efficiency**  
John believes in achieving sustainability, including moving the township to reliance on renewable energy and electric vehicles.
- **Traffic Issues**  
John supports efforts to mitigate traffic flow and speed through our neighborhoods.
- **Small Business**  
John believes it is important to follow Covid-19 safety guidelines but it is also crucial to help develop strategies to keep small businesses operating during this difficult time.
